# MENDOCINO

PRODUCER'S CHOICE

**With the introduction of Mendocino producer's choice products, Grow More Inc. provides innovative science based technology to the hydro industry.**

**30-10-10 VEG VIGOR** Quick green up foliar feed for nitrogen deficient plants, use for native soil grown plants or soil containing media. Helps to reduce soil pH, organic compatible.

**20-20-20 ALL PURPOSE** Medium potential acidity formula to help counteract moderately alkaline water. Versatile formula for foliar or soil applications, organic compatible.

**20-6-16 FOLIAGE PRO** Provides NH<sub>4</sub> - NO<sub>3</sub> balance for optimum foliage. Supplies extra calcium and magnesium. An excellent choice for indoor growers, organic compatible.

**10-52-10 PLANT STARTER** Provides high phosphate level to stimulate rapid root growth and profuse flowering. Creates a beneficial effect when soil temperatures are low. Ideal for transplants, organic compatible.

**10-7-16 ROCK WOOL** pH buffered to reduce pH drift, low phosphate to help reduce stretch. 97% nitrate nitrogen component, organic compatible.

**9-21-12 BLOOM PRO** Helps promote flowering and fruiting, contains extra calcium, magnesium and sulfur plus 7 micronutrients, organic compatible.

**6-30-30 FLOWER AND BLOOM** Ideal 1:5:5 ratio accelerates flowering through strong bud development, enhances flower color and size, organic compatible.

**5-10-40 CRYSTALLIZER** High quality potassium promoter, strong stem and quality bloom, N to K ratio ideal for full production cycle bloom finisher.

**5-11-26 HYDRO** Designed for and formulated for hydroponic - hydro culture, readily modified to meet distinctive plant needs, organic compatible.

**0-50-30 HULA BLOOM** helps improve flowering and bloom development, increases size and yield of harvest.

**0-37-37 FLOWER HARDENER** Helps accelerate flowering and strong bud development, excellent for finishing in soil or in container media. Mixes ideal ratio 0:1:1 to produce sturdy stems and flower color.
