PRODUCER'S CHOICE

## pH Down

30%  $H_3PO_4$

FOR HYDROPONICS

### DIRECTIONS FOR USE:

#### KEEP OUT OF REACH OF CHILDREN

Mixing this product with water, alkaline or incompatible materials may cause splattering and release of heat.

Use 1 teaspoon (5cc) of pH Down per 10 gallons (38 Liters) of nutrient solution. More or less may be needed, depending on pH of make up water, concentration of fertilizer in nutrient solution and rate of plant growth.

Personal protection is recommended when handling this product:

- Wear chemical safety goggles
- Wear chemical resistant clothing
- Wear chemical resistant gloves

**NOTICE:** Buyer assumes all risks of use, storage or handling of this material.

## pH Down

30%  $H_3PO_4$
